

To print this pattern and instructions, you will need one (1) sheet of legal sized paper (8 1/2" X 14")

Notes:

- ✂ Print out this template on Legal Sized paper (8 1/2" x 14")
- ✂ Hold your completed sock up to the template and cut out the size that most closely matches it.
- ✂ Lengthen or Shorten the pattern as needed along the Lengthen or Shorten line
- ✂ Trace the pattern onto a rigid surface. We recommend 3mm thick (or thicker) Foamie sheets as they are water resistant but rigid enough to hold the sock
- ✂ You can extend the cuff of the sock to a length that fits your pattern best.
- ✂ Cut the template out, wet your sock and place it on the blocker. Hang up on a line or lay flat to dry.
